CHAITALI KULKARNI Java Backend Developer (Spring Boot)

Pune, Maharashtra | Phone: 7249469682 | Email: kulkarnichaitali22@gmail.com
GitHub: https://github.com/kulkarnichaitali22 | LinkedIn: https://www.linkedin.com/in/chaitalikulkarni0

SUMMARY

Java Backend Developer with hands-on experience building RESTful APIs using Spring Boot, Hibernate/JPA, and MySQL. Skilled in JWT authentication, database design, and API performance tuning. Delivered production-grade features in Agile/Scrum teams during internships. Strong Core Java foundation with clean coding practices. Familiar with CI/CD pipelines, version control best practices, and full-stack tools such as Angular and React. Focused on developing scalable and efficient backend APIs.

PROJECTS

Car Rental Application — Spring Boot, Angular, MySQL
- Tech: Java, Spring Boot, Spring Web, Spring Security (JWT), Hibernate/JPA, MySQL, Angular, Postman.
- Built REST APIs for car search, booking, availability, and payment workflows.
- API testing using Postman; role-based access (Admin/User).
- Added validation, exception handling, and DB query optimizations to reduce latency.

Smart Event Planning System — React, Spring Boot, MySQL
- Tech: Java, Spring Boot, Hibernate/JPA, MySQL, React, Email service, Postman.
- Multi-role portals (organizer/vendor/attendee) with modular Spring Boot backend.
- Integrated email alerts, scheduling, and basic analytics dashboards.

Employee Management Portal — Angular, Spring Boot, MySQL
- Tech: Java, Spring Boot, Hibernate/JPA, MySQL, Angular, Postman.
- CRUD for employee records with pagination, validation; Angular UI integrated with Spring Boot APIs.
- Layered architecture (controller/service/repository) and DTOs for clean contracts.
- API testing using Postman.

INTERNSHIPS

Trainee Full Stack Java Developer — Flynout SaaS Pvt. Ltd., Pune — Nov 2024–Mar 2025
- Engineered and optimized 10+ REST APIs with Spring Boot + MySQL; improved average response time by ~10%.
- Performed API validation and functional testing with Postman collections.

Web Development Intern — Karmacts Systems Pvt. Ltd., Pune — Apr 2024–Jun 2024
- Built responsive React components; improved site usability and load performance by ~15%.
- Integrated front-end modules with backend APIs for secure, efficient data flow.

EDUCATION

MCA (Computer Applications) — Savitribai Phule Pune University, 2023–2025 | CGPA: 9/10
BCS (Computer Science) — BAMU, 2020–2023 | CGPA: 8.6/10

TECHNICAL SKILLS

- Languages: Java, JavaScript
- Frameworks: Spring Boot, Hibernate/JPA, React, Angular, Spring Security
- Databases: MySQL, phpMyAdmin
- Tools: Git, GitHub, Maven, Postman, Eclipse, VS Code
- Concepts: REST APIs, Microservices (basics), MVC, OOP, Exception Handling
- OS: Windows, Linux

ACHIEVEMENTS & CERTIFICATIONS

- Winner – GDSC Equilibrium 2024 (Best Performer) - Nirman 2.0, among 200+ participants.
- Full Stack Java Certification — The Kiran Academy, Pune (2024)
