TECHNICAL SKILLS

- **Programming**: Java, JavaScript, SQL, HTML, CSS
- **Frameworks**: Spring Boot, Hibernate, Angular, React
- **Databases**: MySQL, phpMyAdmin
- **Tools**: Git, GitHub, Eclipse, VS Code, Maven, Postman
- **Concepts**: OOP, REST APIs, MVC, Exception Handling.
- OS: Windows, Linux

EDUCATION

- **MCA (Computer Applications)**
  Savitribai Phule Pune University
  2023 – 2025 | CGPA: 9/10
- **BCS (Computer Science)**
  BAMU
  2020 – 2023 | CGPA: 8.6/10

ACHIEVEMENTS & CERTIFICATIONS

- Awarded "*Best Performer*" at **GDSC** National Level Event – Equilibrium 2024 (Nirmaan 2.0).
- Completed *Full Stack Java Certification* – The Kiran Academy, Pune (2024).

PROFILE

Full Stack Java Developer with proven experience in building scalable and secure applications using **Java, Spring Boot, Angular, and MySQL**. Skilled in **REST API development, database optimization**, and microservices architecture. Recognized as a 'Best Performer' at a national-level GDSC event for technical excellence. Adept at delivering high-quality solutions in **Agile environments** through performance tuning, debugging, and clean, production-ready code. Committed to **continuous learning** and delivering impactful software solutions.

PROJECTS

Car Rental Application *(Angular, Spring Boot, MySQL)*

- Developed a full-stack car rental platform enabling real-time car search, booking, and management with seamless API connectivity.
- Implemented JWT-based authentication and session handling to secure transactions and user data.
- Designed and optimized RESTful APIs for booking, payment, and availability, reducing latency and improving performance.

Smart Event Planning System *(React, Spring Boot, MySQL)*

- Built a multi-role event management system with dedicated portals for organizers, vendors, and attendees.
- Delivered a responsive React interface connected to a modular Spring Boot backend using microservices architecture.
- Integrated email alerts, event scheduling, and data analytics for improved event coordination and insights.

Employee Management Portal *(Angular, Spring Boot, MySQL)*

- Created a CRUD-based employee management web app to add, update, and track employee records efficiently.
- Developed Angular components integrated with Spring Boot APIs for real-time database operations.
- Implemented role-based access control and validation logic to maintain security and data integrity.

INTERNSHIPS

Trainee Full Stack Java Developer

Flynout SaaS Pvt. Ltd., Pune | Nov 2024 – Mar 2025

- Engineered and optimized 15+ REST APIs using Spring Boot and MySQL, improving response time by 20%.
- Collaborated with developers and QA teams in an Agile Scrum setup to deliver scalable, production-level features.

Web Development Intern

Karmacts Systems Pvt. Ltd., Pune | Apr 2024 – June 2024

- Designed and implemented responsive ReactJS components, improving site usability and load speed by 15%.
- Integrated front-end modules with backend APIs to ensure secure and efficient data flow.
